1935 Forward Control Trojan Van - UOT329 (once ABY805)

Owned by Joe Casey then Phil Potter then Kevin Matcham and currently in the hands of Richard Vincent

1934 Trojan Senior Van - CBY878

This van was owned in the 1960's by Joe Casey of Bedford area, It was purchased by myself and Steve Williams in the early 1970's in running order, but bodily very poor. The van was restored completely by Phil Potter in the 1980's. It has a Trojan pre-select gearbox and PH engine located under the floor. It's in good working order, but has been stored for the last 3 years and therefore needs some re-commissioning.
